WORK EXPERIENCE

June 2019 – August 2019; May 2020 – August 2020

Head Intern • Product Dev, Strategy, Debugging • SmarTECHS

2020: Spearheaded ISO27001 implementation draft, defined privacy and security policies, hosted “CFO War Plan” Webinar, video production and tech demos for clients, set up MS Teams

2019: Developed tech support strategy, improved UI/UX and coordinated for implementation with the dev team, participated in sales channel strategy meetings, video production

June 2017 – June 2018

Employee • Customer Service • Délice et Chocolat Café

One of the first employees at D & C, defined and organized the store’s initial workflow, worked in nearly every area of the store. Focused on customer service, as well as coordinating and training new employees.

August 2018

Camp Counselor • Ding Hao Chinese School

Leader of the middle section (ages 6-8), teaching Chinese culture, assisting in cooking & art

EDUCATION

Computer Science Specialist
and Math Minor (2nd year),
University of Toronto
GPA: 3.9

Graduation: May 2023

Awards:

- U of T Scholar Award
- Dean’s List Scholar
- Innis College Exceptional Achievement Award

KEY SKILLS

- Desktop and server Linux (Fedora and Ubuntu)
- Python, Java, R, some bash scripting, MIPS Assembly, HTML
- English, French, some Chinese
- Strong teamwork and communication skills
- Hubspot CRM

PROJECTS

- Helped create a web app where a user enters an unhealthy craving, and the app uses a natural language processing ML model to search through a database of 45,000 recipes and nutrition information to recommend 5 healthier alternatives. Clicking on a result also gives location (Google Maps API) and recipe info. Worked on the backend using Python (Flask server). Created at the UofT Hacks VII Hackathon.
- Personal Proxmox server running Nextcloud, Wireguard, and Minecraft server
- Stock market and cryptocurrency trading & mining

COMMUNICATION

Exhibited strong communication skills on and off the field as co-captain of the Innis/Woodsworth College Intramural Ultimate team. Made sure that the team was coordinated, everyone was feeling their best, and no one was left out of the team.

Communicated closely with other teammates at the UofT Hacks VII Hackathon to ensure the front & back ends worked together. Coordinated Git usage and managed the Linux VM server hosting the site.
