WORK EXPERIENCE

Summers 2019, 2020, 2021
Intern • Product Manager, Product Dev • SmarTECHS

2021: Created document-to-JSON parser, coordinated developers, wrote user stories, created Figma designs
2020: Spearheaded ISO27001 implementation draft, defined privacy and security policies, hosted Zoom Webinar, video production, and tech demos for clients
2019: Developed tech support strategy, improved UI/UX, coordinated with the dev team, participated in sales channel strategy meetings, video production

June 2017 – June 2018
Employee • Customer Service • Délice et Chocolat Café

One of the first employees at D & C, defined and organized the store's initial workflow, worked in nearly every area of the store. Focused on customer service, as well as coordinating and training new employees.

August 2018
Camp Counselor • Ding Hao Chinese School
Leader of the middle section (ages 6-8), teaching Chinese culture, assisting in cooking & art

EDUCATION —

Computer Science Specialist with Focus in AI & Math Minor (3rd year), University of Toronto
GPA: 3.9
Graduation: May 2023
Awards:
-   U of T Scholar Award
-   Dean's List Scholar
-   Innis College Exceptional Achievement Award

SKILLS —

-   Python, Java, C, R, Bash, MIPS Assembly, HTML
-   Desktop and server Linux (Ubuntu, Fedora, Unraid, Docker)
-   English, French, proficient Chinese and Spanish
-   Strong teamwork and communication skills
-   HubSpot CRM (limited)

PROJECTS

-   Feeling Hungry: a web app using a natural language processing model to recommend 5 healthier alternatives to cravings. Clicking on a result also gives location (Google Maps API) and recipe info. Created at the UofT Hacks VII Hackathon.
-   SuperMarAI: AI using the NEAT algorithm trained to play Super Mario.
-   Personal Unraid server running 10+ Docker containers.
-   Stock market and cryptocurrencies
-   Personal website at https://colindv.xyz
-   Contributions to open-source projects

COMMUNICATION

Coordinated the developer team at SmarTECHS to ensure a common understanding of technical and high-level requirements.

Composed technical and non-technical documentation and user stories to communicate features of the SmarTECHS application concisely and clearly.

Exhibited strong communication skills on and off the field as co-captain of the Innis/Woodsworth College Intramural Ultimate team. Made sure that the team was coordinated, everyone was feeling their best, and no one was left out of the team.
